

# Hill's® Science Diet® Light rebate offer

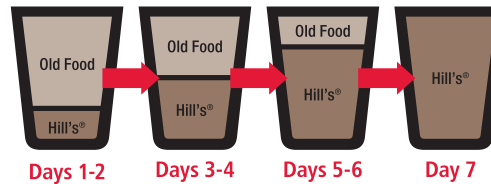

## Why Science Diet® pet food?

Hill's® Science Diet® pet food is made by the same pet nutritionists and veterinarians who make Prescription Diet®, the world's leading therapeutic pet food. That means it's specially formulated to help make dogs and cats healthier, and can dramatically change their lives. From weight control and sensitive stomach support to joint health and fresher breath – see for yourself. Feeding is Believing™

### How to transition your pet to a new food

To avoid digestive upset, gradually introduce the new food over a 7-day period by mixing increasing amounts of the new food with decreasing amounts of the old food.

#### If your pet is reluctant to eat the new food:

- For canned food, please remove desired quantity of pet food from can and place the pet food on a microwave-safe dish. Heat the pet food for 5-7 seconds on high
- Try hand-feeding the new food for the first few days
- Add warm water to the dry pet food and blend thoroughly, or make a gravy by adding water to the equivalent canned pet food
- Sprinkle the food with oregano
